

Get leaks fixed.

One drip each second adds up to 20 litres of water a day. That's enough to fill more than 80 glasses of water!

Turn off the tap to
brush your teeth.

You'll save up to 20
litres of water every
minute.

Save water
& money

Keep cool! Chill
water in the
fridge.

Waiting for the tap
to run cold wastes
water.

Collect rain water.

Lots of rain falls on
your roof.

Collect it in a water
butt to give your plants
a free drink when it's
drier.

Have a water hippo
fitted to your toilet.

Flushing the toilet is
one of the biggest
uses of water at
home.

Wash fruit and
vegetables in a bowl.

Turn off the tap when
you scrub your spuds
or rinse your fruit.

Take a shorter
shower.

Save even more
water by turning it
off when you soap
up.

Put a plug in the sink when
you wash up.

Instead of leaving the tap to
run, out the plug in or use a
bowl.
